

French

St Paul's Academy offers French as a Second Language in a 3 year high school program. The overarching goal of this program of studies is that by the end of French 30-3Y, students can understand and express themselves in basic situations, provided the language they encounter is clear and based on familiar topics and structures, and can use the cultural and strategic knowledge they have gained to sustain their communication.

To find out more about the French 3Y program, please visit: <http://education.alberta.ca/media/677906/threey.pdf>
