

## **Math 20-3 (5 Credits)**

### ***Course Description***

Math 20-3 is a continuation of the material learned in Math 10-3 but in a more advanced manner. Students will learn the following: geometry, financial planning, graphical representations, measurement, and statistics. The course is comprised of assignments and tests with live support online when necessary. The focus of the course is on the practical application of the material learned.

### ***Prerequisites***

The Prerequisite for Math 20-1 is 70% or higher in Math 10C
