

Spanish 10-29-30 (5 Credits)

Course Description

High School Spanish is an introductory course that provides students with the basic skills necessary to communicate with others either orally or using written language. The Spanish Language program is intended for those who have studied Spanish in Elementary to grade 9. Some of the main themes that will be covered in this course are related to entertainment, relationships, friends, sports, hobbies and celebrations.

Student pronunciation and comprehension is included in those three levels. The oral component will be monitored through school websites. It is imperative that students attend pronunciation sessions as often as possible and review the archived sessions at their leisure when they are unable to attend the live session.
